

Imagine installing cable tray without the need of connection hardware on every piece? Imagine the money saved by purchasing fewer parts per length. 4 to 5 less parts on average, hundreds to thousands less per job. Chalfant did. The result, the most cost effective adaptable cable tray the industry has ever seen. **GR-MAGIC** cable tray.

A close-up photograph of the GR-MAGIC cable tray system, showing the interlocking design of the metal bars. The tray is made of a light-colored metal, possibly aluminum, and the bars are connected in a way that allows for easy installation without the need for additional hardware.

GR-MAGIC

CABLE TRAY SYSTEM

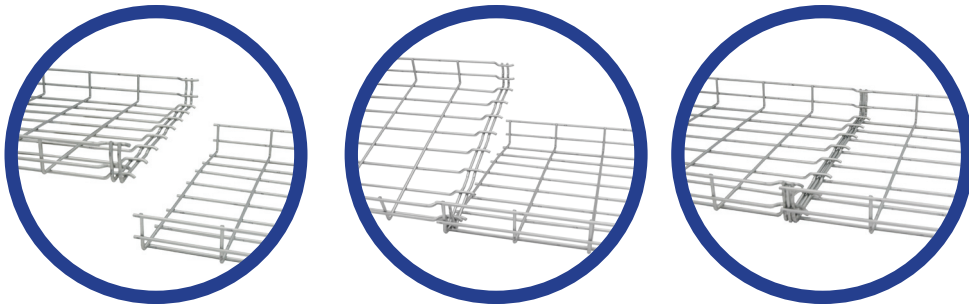

GR-MAGIC cable trays are the newest edition to Chalfant's already vast line up of products. **GR-MAGIC** trays effortlessly interlock with one another forming not only a strong tight joint but use no attaching accessories. **Quick. Easy. Secure.**

FEATURES & BENEFITS

Quick- Snap into place and go. It's that quick and simple. Save time and money. Install twenty foot lengths with the ease of a single snap.

Easy- Because Chalfant's **GR-MAGIC** cable tray is self securing you won't have to pick up a tool, no struggling with hardware, no wasted effort.

Secure- Chalfant's new **GR-MAGIC** cable tray system creates a stiffer hold than ordinary tray connectors. Joints are tighter and more rigid, and can actually hold twice the weight of the typical joint.

GR-MAGIC Cable Trays are available in a number of sizes and finishes. 1", 2", 4", and 6" heights and widths ranging from 4" to 24". Finishes are identified below.
